INTEGRATED PERSONNEL AND PAY SYSTEM - ARMY

IPPS-A and National Guard: What It Means to You

What is IPPS-A?

The Integrated Personnel and Pay System – Army (IPPS-A) is a Web-based Human Resources system that provides a comprehensive personnel and pay record for each Soldier, regardless of Component.

How does it affect the ARNG?

IPPS-A's multi-Component capabilities will streamline transitions between Active Duty, Army National Guard and Army Reserve. Soldiers will benefit from IPPS-A's decrease in pay inaccuracies, paperwork, and processing time for transfers, as well as its increase in timeliness of pay.

What will it do for you?

All Soldiers, regardless of Component, will have web-based access to their own individual personnel record from any common access card (CAC)-enabled computer. IPPS-A will also enable Soldiers to submit personal information changes to HR professionals for review and approval, 24 hours a day. **Ultimately, IPPS-A capabilities will help ensure Soldiers are paid on time and accurately.**

IPPS-A will offer a variety of benefits, including:

- Soldier web self-service portal
- Near real-time 24/7 global web-based access
- Reduction in processing time
- Secured database

What can you do now?

Access IPPS-A to review your Soldier Record Brief (SRB) to ensure all information is up to date! Instructions:
